## WEEKLY HOROSCOPE

**ARIES** (March 21-April 19). "Doing" is an active form of "being" -- sometimes too active to be useful. Don't fall into the trap of doing too much this week. It could cause you to digress, and then you'll have to spend your precious time trying to undo what's been done. Thought of the week: Sometimes it's enough just to be there.  
**TAURUS** (April 20-May 20). You believe that owning one or two high-quality items is much better than laying claim to a heap of junk. The problem is that expert sales forces have conspired to make some junk look like quality. In order to tell the difference, you may have to see things in a different context -- i.e., out of the store. Keep your receipts.  
**GEMINI** (May 21-June 21). There are those who have stolen your heart like a thief and others to whom you have thoughtfully given yourself. This week it's better to be more guarded with your affections, choosing carefully whom to love. Where your love goes, your time follows. So don't throw your kisses. Plant them carefully.  
**CANCER** (June 22-July 22). Some uncomfortable feelings are just passing minor irritants that can be chalked up to life as usual. But persistent emotional discomfort warrants investigation. The reflective mood this week will encourage you to explore the message inside your feelings. Perhaps they are trying to tell you to move in a new direction.  
**LEO** (July 23-Aug. 22). Life is exciting enough. People don't have to do anything extra to make it more so. In fact, this week you would prefer they didn't. You value loyalty, closeness and the predictable comfort that comes from being around those who do what they say they're going to do. This allows you to fulfill your role without drama.  
**VIRGO** (Aug. 23-Sept. 22). Like a concert violinist who spends a good deal of life practicing, you prefer to learn lessons in private and not in front of a packed auditorium. But life isn't like that. We learn the most from those mistakes that involve others. Don't try so hard to control your public image. You won't get it right every time -- and that's natural.  
**LIBRA** (Sept. 23-Oct. 23). Others may

not know why different rooms give off different feelings, but you have a keen sense of ambiance, and you'll immediately sense what gives off good and bad vibes. You'll spend some of your week making this talent work for you, especially by favorably arranging the elements of your environment.  
**SCORPIO** (Oct. 24-Nov. 21). Your emotions speak in a language you'd be wise to learn. You'll get practice this week. Note that you really can't help what does and doesn't make you happy. If you're unhappy, don't waste time denying this because you think you should be happy. Trust that there are reasons, and then get busy finding your "happy" again.  
**SAGITTARIUS** (Nov. 22-Dec. 21). You'll be even more aware than usual of the give and take of relationships. This awareness won't cause conflict, though. Your wisdom is apparent in your decision not to take on certain issues. Sometimes when you back off and let others have their way, it shows not weakness but strength.  
**CAPRICORN** (Dec. 22-Jan. 19). Strong-willed people often experience high levels of frustration as they come up against opposition to their goals. This week's frustration is a sign that you're capable of great things. When frustrated, make yourself comfortable. Aim to feel one step better, not 10 steps better. Solutions will come to your relaxed mind.  
**AQUARIUS** (Jan. 20-Feb. 18). "Who cares?" can be a dismissive question or an earnest way to get to the heart of what you're doing, especially if what you're doing involves art or luxury or is categorically superfluous in nature. Ask who cares, and you'll get to the heart of the marketability, relevance and social usefulness of an endeavor.  
**PISCES** (Feb. 19-March 20). People tend to like people who are like them, and yet they need people with different strengths in order to make life work smoothly. A steady, responsible, reliable person will complement the dramatic mood you will find yourself in from time to time this week. Later, you'll return the favor by being the reasonable one.
